# CourterCo Delivers Smoother Operations

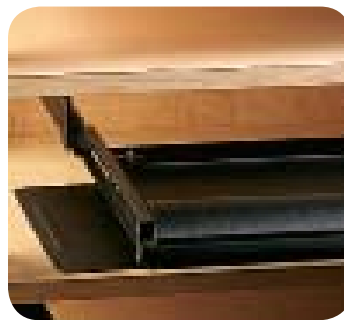

**KNAPE & VOGT**

## Ball Bearing Slides from KV are back In-Stock at

COURTER **CO.**

HELPING YOU OPEN DOORS  
& Drawers

SMOOTHER MOTION - FASTER DELIVERY - BETTER STOCKING - SPECIALTY APPLICATIONS - MORE INNOVATIONS

# WE'RE BRINGING YOU SMOOTHER OPERATIONS

CourterCo has an exciting new change to announce: effective immediately, we will be selling the entire line of KV ball-bearing drawer slides in all three of our branches (Indianapolis, Louisville, and Greensboro). Because of Accuride's restrictions on its distributors, this will result in transitioning our ball-bearing slide business to KV. This decision to change was given much thought and we are confident that this is the better option. CourterCo is of the opinion that KV is the best slide option in the market today. We have appreciated Accuride's partnership in the past, but we believe and have been told by our customers that our market has changed in a way that requires us to explore all ball bearing drawer slide options and that the restrictions placed on CourterCo are now unnecessarily impeding our growth in this very important product group. We are dedicated to bringing you the best options for your hardware needs. This cannot be accomplished if our ability to source the best products is unnecessarily restricted. We believe that the best course of action for our customers is for CourterCo to renew our long history with KV Drawer Slides and enhance that relationship by fully supporting what we deem the most comprehensive, value oriented, and highest performing slide line in the industry. The result will be more value for our customers and that is CourterCo's mission: to provide the highest level of value possible.

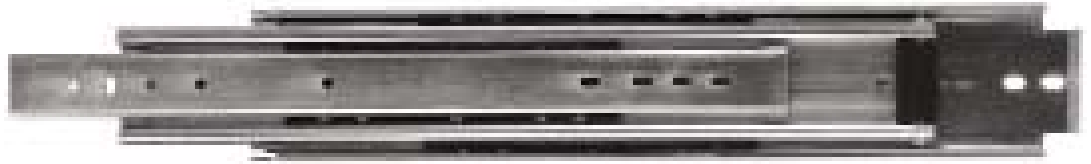

Because of the magnitude of this change, we feel it is necessary to make you all aware of the reasoning that supports this transition:

- **KV has proven to be the innovator in the marketplace.** The ball bearing slide line continues to grow and KV has added appealing products such as the the Soft-Close (8450), an interlocking high weight capacity file slide (8505T), the value oriented Tru-Trac full extension slide, new additions to the keyboard tray, and the undermount (9400)
- **KV's slides are smoother and better engineered.** Because of the unique design aspects of the KV drawer slide and the addition of 50% more ball bearings than Accuride's 3832 slide, the KV offering provides a smoother, quieter, and stronger option in the ball-bearing slide product group.
- **Soft-close sidemount drawer slides** are tested and consistently meet the demands of the high quality cabinetmaker.
- **KV's slide offering is extensive.** Over the last several years, KV has worked diligently to expand their offering to include the industry's most sought after slides. Heavy-duty (up to 500 lbs.), specialty sizes (up to 60" long in some cases), specialty functions (detent out, low profile, interlocking, stainless steel), and multiple price levels (8400, PBB, or Tru Trac) are included in the current line. We believe KV to have the most extensive line of slides available in our market.
- **KV 8400s are American Made in Grand Rapids, MI.** Not Mexicali, not China. We have import options too if budgets dictate the need, but the flagship product is still US based and its pricing has remained very competitive and the quality is among the best in the industry.
- **KV has better service.** Because of shorter lead-times and manufacturer stocked inventory, CourterCo will be able to provide more slide options quicker and with less restrictions than we could with Accuride (due to high minimums, JIT manufacturing, and slow order processing times).
- **KV and CourterCo share a similar philosophy and strategic vision.** We are committed to the cabinet industry. KV is committed to the cabinet industry. This is not a supplemental market that simply supports a larger operation in an unrelated industrial market as it appears to be with Accuride. Attention High-Quality Cabinetmakers: You are our larger operation. You have our full attention.
- **KV has local representation that is dedicated to our operating areas that can provide quick response to your needs.**
- **CourterCo is now free to explore all slide alternatives and we will seek to bring you a more comprehensive product line.**

This is a significant transition for all of us and we are ready to assist you in helping convert your existing Accuride items to what we believe will be a higher quality, more valuable KV option.

COURTERCO IS READY TO SHIP AND WOULD VERY MUCH APPRECIATE YOUR ORDERS FOR KV BALL BEARING SLIDES

**INDIANAPOLIS - LOUISVILLE - GREENSBORO**  
800-837-7550      800-837-2369      800-852-3050  
317-879-2454 FAX      502-253-0051 FAX      336-378-9323 FAX

**KV's 8400** Drawer Slide is our flagship ball-bearing drawer slide. It is versatile, quiet, smooth, and precise. Its unique design provides strength and flexibility. It would be easy to call it a "replacement" for the 3832, but it is probably more accurately described as an "upgrade". We are pleased to bring you the premier drawer slide in the industry.

- 50% more ball bearings than the 3832 makes it smoother, quieter, stronger, and more precise
- Push-in disconnects are non-handed, eliminating confusion for your customer
- Front mounting hole eliminates the need to purchase additional costly brackets to attach to face frames as is needed with the 3832
- Unique rolled ball-bearing raceway insures the ball bearings carry the load without transferring stress to the bushings sliding on steel
- SOFT-CLOSE FEATURE IS AVAILABLE, TESTED, AND SUCCESSFUL!
- Full extension, Overtravel, Touch-Release (available soon), Soft-Close, Self-Close, Heavy Duty Self Close, Detent Out, Shelf Bracket, Front Bracket, Black, and White options available

*the standard bearer*
